Alongside my studies: remote, or hybrid in Bratislava. Part-time, student job or freelance contract.

OTHER

Driving licence (B)
Born 1 Sep 2006

ABOUT ME

I have been doing graphic design **for 5 years**, entirely self-taught. I mostly create **posters, banners, social media posts and product mockups**.

Outside design, I enjoy programming and technology. I study Applied Informatics at FEI STU, build my own projects and try new AI tools every day. I follow social media and video content closely, so I know what works there. I am looking for my first job in a team where I can work on real briefs.

Self-taught
I pick up new tools quickly and on my own.

Competitive
I want to be the best at what I do.

Calm and reliable
I meet deadlines and keep things drama-free.

AWARDS

2× 1. — **1st place, regional round**
ZENIT programming competition · Graphic Design category · 2025 and 2026
